T4FoodProducts:

The new era for food companies: innovation and efficiency

Your industry faces constantly changing demands: more discerning consumers, stricter regulations, and global competition require more than just a robust product. You need a solution that maps your entire value chain – from procurement to production to sales.

Our platform is your answer to these challenges. It optimizes your processes, creates absolute transparency, and allows you to refocus on the strategic aspects of your business: innovation, growth, and sustainable profitability.

CORE FUNCTIONS FOR SUSTAINABLE SUCCESS

Digitization of production

Our solution enables you to **digitize your manufacturing processes** to ensure compliance with regulations while raising your quality standards. You gain full control over every step and increase efficiency without compromising flexibility. Simplified data collection allows your employees to focus on their core tasks.

Integrated quality and logistics management

We create a seamless connection between your logistics and production processes, so that quality is not just a goal, but a constant. Our integrated solution gives you **real-time visibility** into your inventory, deliveries, and shipments. This allows you to optimize your warehousing and avoid bottlenecks. Every batch is fully **traceable**, guaranteeing you and your customers the highest level of safety.

Efficient supplier management

Ensure quality right at the start of the supply chain. A continuous system for **approving and evaluating suppliers** means you always have your partner network under control. This minimizes risks and ensures that you always process raw materials of the highest quality.

Strengthening the field service

Increase the productivity of your sales teams. **SAP software** enables efficient route planning and territory management. Your sales representatives can manage visits and campaigns in a targeted manner and have all relevant information at their fingertips. This allows you to generate more revenue and strengthen relationships with your trading partners.

Data-driven decision-making

Real-time information helps you make the best decisions. Our dashboards provide you with strategic and operational KPIs on finances, logistics, and costs. Thanks to this **comprehensive transparency** at all levels, you can act quickly and confidently.

YOUR BENEFITS AT A GLANCE

- ✓ **Proven industry solution:** A platform based on **SAP Cloud ERP** that maps industry-specific scenarios and seamlessly integrates your core areas of finance, production, and logistics.
- ✓ **Maximum scalability:** Our solution grows with you. Whether you are expanding internationally, making new acquisitions, or expanding your product range, the system adapts flexibly to your requirements, ensuring your future viability.
- ✓ **Fast ROI:** Thanks to our industry-specific templates, focus on best practices, and improved methodology based on SAP Activate, we significantly reduce implementation time. The strategic replacement of outdated applications leads to a significant reduction in operating costs.
- ✓ **Expertise that pays off:** A specialized team of industry experts and **SAP Cloud ERP experts** will guide you on your journey to digital transformation.
- ✓ **Agile Change Management:** Our methodology, combined with the qualified solution and our experienced consultants, ensures that your team is involved from the outset. This minimizes resistance and accelerates the adaptation of the new processes.
